

## Case Studies: Who Chooses Structure Networks?

Some of the world's largest and most successful companies have turned to Structure Networks for mission-critical staff. They have come to trust Structure Networks' proven location, screening and recruiting processes, resulting in on-time and on-budget project delivery.

### Amgen: The World's Largest Biotechnology Firm

**World-wide Active Directory Migration:** The world's largest biotechnology company hired the Active Directory, NIS+, and LDAP Architects from Structure Networks. In addition, Structure Networks provided the Analysts and Documentation Specialists as well as a number of Techs. Working with the Amgen PMO, our consultants were responsible for the overall design, testing/validation, deployment and migration to a parallel Windows 2003 Active Directory infrastructure for over 18,000 users located at over 40 sites in North America, Europe and Asia. In addition, we helped develop the strategy for migrating user accounts, security groups, client workstations and application servers from over 45 NT 4.0 domains to the Windows 2003 Active Directory infrastructure.

### Microsoft®: IPTV – Mediaroom™; The Next Generation of Television

**IPTV – Internet Protocol Television:** Microsoft® has invested over \$10B on Internet Protocol Television and has chosen Structure Networks to provide virtually all of the staff for their regional IPTV Labs. Structure Networks currently has staff deployed in 13 states, Canada, and Mexico in support of this project. Microsoft® Mediaroom™ is a multimedia software platform that enables a personalized TV and entertainment experience so consumers can easily find and watch what they want, when and where they want it. Microsoft® has partnered with major Telco companies around the world to deliver this new offering to the consumer. Our consultants are helping to develop and maintain the underlying infrastructure within each regional lab located in hub cities throughout the US, Canada and Mexico. Skill sets of these consultants include MOM, SMS, SQL, and MCSE-level networking skills. In addition, Microsoft calls on Structure Networks to deliver Microsoft-Platform centric consultants including .NET, SharePoint, and MOSS experts across North America.

### Deloitte Consulting: State of California Court Case Management Portal

**California Administrative Office of the Courts – Case Management Portal:** As a Deloitte partner, Structure Networks was chosen to provide staff for the development of a Case Management Portal for the State of California Courts system. Over the life of the project, Structure Networks provided over 70 consultants including Architects, Java Developers, Data Modelers, GUI Design experts, DBA's, QA Analysts and Technical Writers. Upon completion of the development effort, Structure Networks Contract Consultants participated in the deployment of the product across the State to various county court offices. The project was a complete success and Deloitte was subsequently awarded the follow-on project that will be completed in 2009 – Deloitte has asked Structure Networks to participate in this effort as well.
